LTA Teller Cash Recycler

Technician Cleaning Kit

Part #: KWATC-KTCRTEC

Step One

MiracleMagic®

Waffletechnology® Cleaning Card

- 1 Select the normal 'Batch Count' function on the Cash Recycler
- 2 Remove cleaning card from pouch and place into **Input Bin 1a**
- 3 Allow cleaning card to cycle through transport pathway to clean
- 4 Retrieve cleaning card from **Output Bin** and repeat process for a total of 5-6 times
- 5 Properly dispose of cleaning card and pouch

Step Two

MiracleMagic®

Scrub Pads for KICStick™ Cleaning Tool

- 1 Separate Scrub Pads to make one teardrop-shaped pad and one square-shaped pad with slits
- 2 Select the preferred Scrub Pad and attach to the velcro tip of the KICStick™ Cleaning Tool
- 3 Use KICStick/Pad combo to clean hard-to-reach sections along the **Transport Pathway** including under belts and between sections where buildup is common **2a 2b**
- 4 Use soft microfiber side to pretreat/clean and scrubbing side to remove tough buildup **2c**

Step Three

MiracleMagic®

Swisel® 3-in-1 Cleaning Tool

- 1 Use the presaturated foam head to reach and clean all **Transport Pathway Sensors 3a**
- 2 If needed, the plastic chisel/scraper can be used to safely loosen caked-on buildup or foreign objects along the **Transport Pathway 3b**

Final Step

Large Microfiber Wipe (dry)

- 1 Use microfiber wipe to safely remove residual moisture and dust from all sections
- 2 Wipe **CIS Lenses** in one direction, instead of back-and-forth
- 3 After one final inspection, return the Cash Recycler back to service

* Additional cleaning kits may be needed for units experiencing higher than average usage and/or buildup
