

Cleaning for Performance

CashDro Utilizes KICTeam's Innovative cleaning Solutions for Their Line of Payment Stations

BARCELONA, Spain – July XX, 2022 - KICTeam, Inc., is pleased to announce that it is partnering with CashDro, a leading European Pay Station manufacturer, to provide targeted cleaning solutions for their range of cash handling technology.

Antony Harris, Head of Europe at KICTeam, Inc., says, "We are very pleased to be able to offer CashDro customers solutions to care for the range of Cashdro's Pay Station products. The cleaning products deliver a simple, safe, and effective way to routinely remove disruptive build-up that accumulates with normal operation and leads to transaction failures."

The specialized cleaning products utilize KICTeam's proprietary Waffletechnology® cards and MiracleMagic® and CoinMagic® cleaning agents for cash-handling technology. To further support the initiative, KICTeam will develop documentation, videos, and general orientation to make pay station cleaning as easy as possible for CashDro customers and encourage a routine maintenance schedule to ensure that their Cashdro Pay Stations operate at peak performance.

Lluís Fernandez, Managing Director of CashDro, states, "Regular cleaning is an important part of maintaining the machine's performance and this partnership gives us the opportunity to recommend specific products to our customers that have been proven and tested as safe and effective, removing any doubts they may have of how and where to clean and what to use."

###

About CashDro

Cashdro, one of Europe's leading Pay Station manufacturers, provides secure pay station solutions, considered the safest on the market, with tens of thousands of units installed across the world. Unlike other drawers made of plastic or thin sheet, CashDro is made of steel sheet up to 4mm thick. CashDro equipment features a self-diagnostic system and automatic, historic deposit calculation. The company offers strong after-sales service supported by an extensive network of certified technical services that monitors the performance of installed equipment in real time and includes a system that initiates immediate shipment of parts for replacement in less than 24 working hours.

About KICTeam, Inc.

KICTeam manufactures safe, effective cleaning solutions for electronic devices in industries including QSR/Restaurant, Banking & Credit Unions, Grocery & Big Box Retail, C-Store & Specialty Retail, Transportation & Logistics, Hospitality, and Gaming, Vending & Amusement. KIC's products have been tested and endorsed by over 50 original equipment manufacturers (OEMs) as being tough on dirt, germs, and grime yet gentle enough for everyday use on sensitive technology. Products and patented technology are manufactured at the headquarters facility in Auburn, Maine and distributed around the world.
